§ 21.03.001 FINDINGS.

(A) San Benito County Goals and General Plan.

(1) The Board of Supervisors finds that a decent home and suitable living environment for all is a priority of the highest order; this priority conforms to state and federal policies. A key goal of the County is to achieve a balanced community with housing available for persons of all economic levels, with priority given to those persons currently residing or working within the County.

(2) The Board of Supervisors finds there is an inadequate supply of housing in San Benito County that is affordable to very low, low, and moderate-income households. Federal and state housing finance and subsidy programs are not sufficient in themselves to meet that need.

(3) The Board of Supervisors finds that the cost of housing in new developments has increased and will continue to perpetuate this housing shortage. Further, land for residential development in

the County is limited, and the amount of land which can be used for development of housing for very low, low, and moderate-income households is being depleted by development of high cost housing.

(4) The Board of Supervisors finds that the provision of housing affordable to very low, low, and moderate-income households is a County-wide responsibility, and the provision of such housing is a goal of the housing element of the County general plan. A County-wide inclusionary housing program will assist in alleviating the use of available residential land solely for the benefit of households that are able to afford market rate housing because such market rate development will be required to contribute to the provision of affordable housing for the entire San Benito community.

(B) Provide for Workforce.

(1) The Board of Supervisors finds that the housing shortage for persons of very low, low, and moderate-income is detrimental to the public health, safety and welfare, and particularly finds that provision of very low, low, and moderate-income housing is fundamental to the maintenance of an adequate, growing workforce and market place for the local economy, as well as to provide housing for additional employees whose jobs serve the increasing population living in new market-rate housing.

(2) The Board of Supervisors acknowledges that if very low, low, and moderate income workers cannot find housing in the County, then employers will have difficulty in securing a labor force; and employees will be forced to commute. Employee commutes use limited gasoline resources and increase air pollution.

(C) Benefit to the County. The Board of Supervisors finds that a County-wide affordable housing program will benefit the County as a whole. Each property that contributes to inclusionary housing augments the housing mix, increases the supply of housing for all economic segments of the community, and thereby provides for a balanced community, which is deemed to be in the public interest.

(D) Resale Restrictions/Shared Equity Recapture. The Board of Supervisors finds that the effect of an affordable housing program is severely diminished if it benefits only the first occupants of very low, low, and moderate-income housing, and affordable for-sale and rental units are resold at market prices. Therefore, the Board of Supervisors recognizes that resale control, to ensure the continuing availability of affordable units to extremely low, very low, low, and moderate-income households, is a necessary consideration in order to prevent undermining of the credibility of the whole program, particularly because of the loss of the unit itself as an affordable for sale and rental unit.

(1) If the project site is receiving State administered funding and the State Housing & Community Development Agency does not allow Resale Restriction requirements the project must develop a supplemental requirement to maintain the affordability of the unit and recapture any loan funding.

(E) Public Purpose. The Board of Supervisors finds that public housing programs and housing subsidy programs can meet only a small portion of the need for very low, low, and moderate-income housing. The vast majority of housing units has been and will continue to be produced by

the private housing industry. This industry has the knowledge and ability to produce housing affordable to extremely low, very low, low, and moderate-income households given supportive government policies, including incentives and public investment as appropriate. Therefore, the Board of Supervisors finds it is a public purpose of the County to seek assistance and cooperation from the private sector and non-profit agencies in making available an adequate supply of housing for persons of all economic segments of the community.

(F) Benefits of the Application of this Chapter. Application of this chapter may benefit the public through increased housing opportunities in all areas of the County, an increased supply of very low, low, and moderate-income housing, and an increased availability of funds for very low, low, and moderate-income housing projects.

(G) Collection of Fees. Fees can be paid in lieu of building units and will be based on an in-lieu fee study. The fees permitted by this chapter will be fair and effective because:

- (1) The fee amount will be based on the amount necessary to construct or subsidize an affordable unit or affordable units as called for by this chapter, so that when a developer elects to pay an in-lieu fee, funds will be available to reach the County's overall affordability target, without excessive payments and without setting varying fee standards on a case-by-case basis;
- (2) The fees collected will be used in a specific time frame for the provision of extremely-low, very low, low, and or moderate-income housing;
- (3) Fees will be adjusted annually based on the Construction Cost Index or CPI (Shelter Only). A new in-lieu study will be conducted every five years; and

(H) Other Objectives. The Board of Supervisors finds that an objective of this chapter is to meet the housing needs of all types of very low, low, and moderate-income groups in a manner that is economically feasible and consistent with their needs.

- (1) The Board of Supervisors further finds that extremely low, very low, low, and moderate income housing best achieves the broader community goal of integrating households of all economic levels into the community when such housing is provided throughout the community and that a specific objective of this chapter is to provide housing opportunities throughout the community, in all planning areas of the County for very low, low, and moderate-income households.
- (2) The Board of Supervisors further finds that an objective of this chapter is to provide housing opportunities for very low, low, and moderate-income household members currently residing or working in San Benito County, on a priority basis.

§ 21.03.002 PURPOSE.

The purposes of this chapter are to enhance the public welfare, benefit the property being developed, assure compatibility between future housing development and the housing units affordable to persons of very low, low, and moderate-income and ensure that remaining developable land in the County is utilized in a manner consistent with state and local housing

§ 21.03.004 INCLUSIONARY CONTRIBUTION REQUIREMENTS & ALTERNATIVE DEVELOPMENT OPTIONS

(A) The requirements of this chapter are minimum requirements and shall not preclude a residential development from providing additional affordable units and/or affordable units with lower rents or sales prices. Except as expressly provided in paragraphs (b) and (c) of this section, all residential developments shall contribute to the provision of housing for very low, low, and moderate-income households in the County of San Benito as provided in this chapter.

(B) Pending developments, as that term is defined by this chapter, shall be subject to the requirements of the inclusionary housing ordinance in effect when the application for the development is first approved by the appropriate authority, with the exception that vesting

tentative maps shall be subject to the requirements of the inclusionary housing ordinance in effect when the application for the vesting tentative map was deemed complete.

(C) Residential developments which meet one of the following criteria shall not be required to comply with this chapter:

- (1) Residential developments that form part of a larger residential development as to which the requirements of this chapter have previously been fully satisfied and as to which there is no default in continuing obligations under this chapter, where the new residential development results in no increase in the number of previously approved lots or units;
- (2) Development as to which the applicant demonstrates that there is no reasonable relationship between the development and the requirements imposed by this chapter, that the requirements of this chapter would take property in violation of the United States or California Constitutions, or that as a result of unusual or unforeseen circumstances, it would not be appropriate to apply, or would be appropriate to modify, the requirements of this chapter, provided that the Board of Supervisors makes the determination to approve or disapprove an exemption or modification, and makes written findings, based on substantial evidence, supporting that determination;
- (3) Development for farmworkers;
- (4) Mobile-Home Park

(D) Notwithstanding any other provision of this chapter, an applicant may propose an alternative means of compliance with this chapter by submitting an Affordable Housing Plan that achieves the purpose and intent of this chapter. The Board of Supervisors may approve such alternative method of meeting the County's inclusionary housing requirement by means of a Development Agreement or an Affordable Housing Agreement or other appropriate means if the Board of Supervisors finds and determine that, based on substantial evidence in the record, the proposed new residential development is consistent with the general plan, will assist in the attainment of the County's identified housing needs and regional fair share responsibilities for very low, low, and moderate income households, and the number of affordable housing units will provide an acceptable level of affordable housing while providing public benefits consistent with compliance with the express requirements of this chapter.

- (5) Payment of in-lieu fees
- (6) Developers may reserve or set-aside the right to land to be transferred to an affordable housing developer to satisfy an affordable housing requirement. Land may be part of the market-rate development being constructed, or may be provided off-site in a high-density residential zone. Priority will be given to development projects that satisfy affordable requirements through land set-aside and dedicated to high-density affordable housing.
- (7) Build affordable multi-family rental units within the development rather than affordable for-sale, single-family homes.

- (8) Inclusionary requirement can be met through a combination of providing inclusionary units and in-lieu fees.
- (9) Townhomes can meet for-sale housing requirements.
- (10) Off-Site construction – Require a higher percentage of inclusionary units if the developer selects this option.
- (11) Land donation – Value of the land should not be lower than the total fees that would have been paid.

§ 21.03.005 INCLUSIONARY REQUIREMENTS.

All residential development consisting of five or more lots, inclusive, in San Benito County shall provide inclusionary units on-site or off-site, except that a fee may be paid in-lieu of providing fractional units and in other circumstances specified in § 21.03.008. The size, design, and location of inclusionary units shall be consistent with a project-specific Affordable Housing Plan, the County General Plan, zoning ordinance, and other County ordinances and building standards. To satisfy the inclusionary requirement the inclusionary housing type is not limited to single family units and based on the appropriate zoning can include: mixed-use residential, townhome, duplex, and other housing types proposed by the Affordable Housing Plan. The size, design, and location of inclusionary units shall be consistent with a project-specific affordable housing plan, the County general plan, zoning ordinance, and other County ordinances and building standards. To satisfy the inclusionary requirement the inclusionary housing type is not limited to single family units and based on the appropriate zoning can include: mixed-use residential, townhome, duplex, and other housing types proposed by the Affordable Housing Plan. Compliance may be accomplished by the applicant alone or in combination with others, including a non-profit housing corporation, as specified in Section 21.03.006 and 21.03.007

§ 21.03.006 ON-SITE UNITS.

(A) To satisfy its inclusionary requirement on-site, a residential development must construct inclusionary units in an amount equal to or greater than 15 percent of the total number of units approved for the residential development (except to the extent a fraction of a unit would be required, for which the applicant may elect to substitute a fractional unit fee). Initial and subsequent affordability levels and eligible occupants of the inclusionary units shall conform to the requirements of Section 21.03.010, as applicable.

(B) On-site affordable units must:

- (1) Receive building permits and certificates of occupancy concurrently with the remainder of the residential development, as set forth in and except as otherwise provided by the affordable housing agreement;
- (2) Will be compatible in exterior appearance with the other units in the residential development (though interiors may differ to the extent authorized in the affordable housing agreement) and be dispersed throughout the residential development to the extent feasible or

as otherwise provided by the inclusionary housing agreement;

(3) Have a similar number of bedrooms as the market rate homes in which the affordable units are located.

(4) Minimum unit sizes are defined as 80% of the average market rate unit sizes for rental and ownership units in the specified development

(C) The percentage of required inclusionary units is the same for both rental and for-sale housing, but income targeting for rental housing and for-sale housing are not the same. See the tables below for both on-site and off-site affordability target for-sale and rental inclusionary units.

§ 21.03.007 OFF-SITE AFFORDABLE UNITS.

(a) Off-site inclusionary units, in place of or combined with on-site units, may be approved upon a showing by the applicant for the residential development, approved by the appropriate authority, that off-site units will provide a greater contribution to the County's affordable housing needs. If a developer chooses off-site affordable housing, the inclusionary requirement shall be 20%.

(b) Off-site affordable units, to the greatest extent possible, should be located within the same planning area as the market rate project.

(c) Off-site units may be allowed only if their location is identified and is owned, or site control is demonstrated by the applicant, at the time of first approval.

(d) Except as otherwise provided in the affordable housing agreement for the residential development, building permits for corresponding market-rate units will not be issued until building permits have been issued for off-site units, and final inspections for occupancy will not occur for corresponding market-rate units until final inspections for occupancy have occurred for off-site units.

(e) The off-site inclusionary housing requirements of this chapter are summarized in the following table. Should there be any discrepancy between this table and the text of this ordinance, the text shall control (Table to be provided)

§ 21.03.008 IN-LIEU PAYMENT AND OTHER ALTERNATIVE COMPLIANCE MECHANISMS.

(A) For both on-site and off-site construction, unless an exemption is approved by the Board of Supervisors pursuant to subparagraph (c) below, the applicant shall be required to build the whole number of inclusionary units as determined in subparagraph (b) below. The Director of Resource Management Agency or his/her designee shall calculate and update the In-Lieu Fees on an annual basis based on Refer to section where fees are presented. The Board of Supervises

shall then adopt the fees annually as part of the Master Fee Schedule. Please refer to the department fee schedule for the annual in-lieu fee.

(B) Fractions of units. Residential developments required to construct fractions of a unit under this chapter may pay an in-lieu fee in an amount corresponding to the fractional unit, computed by multiplying the in-lieu fee amount determined under subsection (c) below by the fraction.

(C) Qualification for in-lieu payment. The developer of a residential development containing twenty- one or more units may elect to pay a fee in-lieu of providing some or all of the required inclusionary units if the developer demonstrates, based on evidence in the record, in connection with the first approval for the residential development, that specific characteristics of the development site, such as lack of access to services, zoning which requires large lot development, or potentially high site maintenance costs, make the site unsuitable for households at the required income levels. The evidence must be reviewed by the Planning Commission for first approval and the qualification for an In-lieu Payment must be approved by the Board of Supervisors.

(D) Payment Amount. Inclusionary fees shall be set forth by Resolution of the Board of Supervisors and shall reflect the findings found in Section 21.03.001(g).

(E) Time of payment. Payment of in-lieu fees shall be made in full to the County prior to issuance of a certificate of occupancy and final inspection, unless an affordable housing agreement otherwise provides.

(F) Alternative compliance mechanisms should be used only when they will lead to the production of more affordable units than would otherwise be provided on-site, while still being consistent with the ordinance's other goals. Also, alternatives should be made available where on-site production of units is less feasible, rather than as a default option for all developments. Examples of alternative mechanisms include (but are not limited to the following: land donation, construction of rental units adjacent to for-sale projects, provision of subsidies to non-profit developers for affordable rental housing,

§ 21.03.009 DEVELOPMENT PROJECT APPROVAL.

(A) A residential development application will not be deemed complete until the applicant has submitted plans and proposals which demonstrate the manner in which the applicant proposes to meet the requirements of this chapter, including any plans for the construction of on-site units, commitment of off-site units, and/or intent to pay in-lieu fees.

(B) Conditions to carry out this chapter shall be imposed on the first approval of a residential development. When granting the first approval, the appropriate authority shall determine and include as a condition of approval: (1) the method of compliance with this chapter, including whether the residential development will comply with this chapter through provision of on-site units or off-site units or payment of an in-lieu fee or combination thereof; (2) if inclusionary units are to be provided, the number of units required and fractional amount of units for which an in-lieu fee may be paid; and (3) such other matters as the appropriate authority deems proper.

The condition of approval shall further provide that prior to the recordation of the parcel map or final map in the case of subdivisions and or prior to the issuance of building permits in the case of all other land use permits to which this chapter applies, the applicant shall enter into an affordable housing agreement acceptable to the director that contains specific requirements implementing the condition of approval including, but not limited to, as applicable, the number of inclusionary units, the level of affordability, location and type of inclusionary units, timing of construction of inclusionary units in relation to the construction of the market rate units contained in the development, and amount of the in-lieu fee, if any. The affordable housing agreement may be amended by the parties, provided the amendment is consistent with the condition of approval imposed as part of the first approval and the existing County approvals.

If the proposed amendment is minor or technical in nature, the director shall have authority to approve or disapprove the amendment on behalf of the County. If the proposed amendment makes a substantive or material change to the affordable housing agreement, the amendment shall be effective only if, following notice and hearing and such other procedures as may be required by law, approved by the appropriate authority who gave the first approval on the project.

(C) Where a residential development receives a subdivision approval, the final subdivision map or parcel map, which is to be filed and recorded, shall include a notation, in a form acceptable under the Subdivision Map Act, describing the condition of approval to comply with this chapter.

(D) Where the party subject to a fully executed affordable housing agreement or other document regulating or limiting the operation, price or rent of an inclusionary unit, entered into under this chapter or any previous version of this chapter, believes that the document requires modification as a result of unusual circumstances which could not have been foreseen at the time the document was entered into, the affected party may apply to the County Board of Supervisors for modification of the document. Such modification shall be considered at a public hearing during a regularly scheduled meeting.

(E) Any determination made by the appropriate authority to implement this chapter in connection with granting a first approval may be appealed pursuant to the appeal provisions of San Benito County Code, Title 25, Chapter 47.

§ 21.03.010 OCCUPANCY AND CONTINUING AVAILABILITY OF UNITS.

The occupancy and continuing availability of inclusionary units shall be provided for in the following manner:

(A) The number and type of rental inclusionary units and for-sale inclusionary units shall be determined for each application or approval under the standards of this chapter and set forth in the Affordable Housing or Development Agreement as approved by the Board. On-site and off-site for-sale and/or rental inclusionary units shall be sold/rented only to eligible households and only to extremely low, very low, low, or moderate income households, as applicable, at prices affordable to such households and pursuant to further requirements of resale restrictions,

a promissory note, second deed of trust naming the County of San Benito as beneficiary, deed restrictions and/or other documents pursuant to this chapter.

Where the number of required very low-income units is not a whole number, the fractional units required shall be added to the number of low-income inclusionary units required. If the resultant number of low-income units is not a whole number, the fractional units required shall be added to the number of moderate-income inclusionary units required. Where (after any addition of fractional units under the preceding sentences) the number of moderate income inclusionary units required is not a whole number, the applicant shall include the next higher whole number of moderate-income and inclusionary units, or may elect to pay a fractional unit in-lieu fee in the amount provided in Section 21.03.008.

(B) The initial maximum sale price of the inclusionary unit to the first purchaser shall be determined by the director, pursuant to a method set forth in the administrative manual. Similar restrictions shall be required of subsequent owners at the time they acquire the unit. The initial maximum rental price of the rental inclusionary unit shall be determined by the Health & Safety Code related to Section 8 or by the director, pursuant to a method set forth in the Administrative Manual, or as established by ordinance from time to time, at the discretion of County Counsel

(C) Resale Value for an Inclusionary For-Sale Unit: The maximum resale price shall be determined under the approved documents, consistent with the administrative manual and the following:

- (1) The maximum permitted resale price of an inclusionary unit shall not be increased above the purchase price within one year of purchase.
- (2) The maximum permitted resale price shall be the initial sale price of the inclusionary unit, increased at the same rate as the median income has increased, with the following modifications.
- (3) Where an owner has lawfully added a bedroom to a for sale inclusionary unit, the maximum resale price of the unit shall be calculated based on an assumed household size corresponding to the total number of bedrooms, including the added bedroom.
- (4) The administrative manual and/or approved documents may provide for a ceiling which limits the resale price increases resulting from the modifications in subsections (C) and (D).

(D) Transfer: Transfer of a for-sale inclusionary unit to a child or step-child upon the death of one or more of the prior owners shall be permitted without payment of any amount otherwise due to the County based on the sales price or appreciation of the unit, and without regard to any otherwise applicable preferences or waiting list priority for successor owners, if, but only if, the household of the child or step-child would be eligible to purchase the unit and will occupy the unit. A child or step-child, whether or not his or her household is income eligible or will occupy the unit and regardless of any otherwise applicable preferences or waiting list priority, shall be entitled to own and/or occupy a for-sale inclusionary unit after the death of the prior parent owner, for a period not to exceed one year, without regard to otherwise applicable resale requirements of this chapter but subject to any applicable provisions of the administrative manual or County documents regulating the project. § 21.03.013 DENSITY BONUS AND INCENTIVES.

(a) The County of San Benito shall provide density bonuses, incentives or concessions for the production of housing units and/or child care facilities in accordance with Cal. Govt. Code §65915 through §65916. The County may, in its discretion, grant a density bonus greater than required by Cal. Govt. Code §65915 for a development that meets the requirements of Cal. Govt. Code §65915 or grant a proportionately lower density bonus than what is required by Cal. Govt. Code §65915 for developments that do not meet the requirements of Cal. Govt. Code §65915.

(1) Twenty percent of the total units of a housing development for lower-income households, as defined in section 50079.5 of the Health and Safety Code;

(2) Ten percent of the total units of a housing development for very low-income households, as defined in section 50105 of the Health and Safety Code;

(3) Fifty percent of the total dwelling units of a housing development for qualifying residents, as defined in section 51.3 of the Civil Code; or

(4) Twenty percent of the total dwelling units in a condominium project as defined in subdivision (f) of section 1351 of the Civil Code, for persons or families of moderate income, as defined in section 50093 of the Health and Safety Code.

(b) The County shall grant the additional concession or incentive required by this section unless the County makes a written finding, based upon substantial evidence, that the additional concession or incentive is not required in order to provide for affordable housing costs, as defined in section 50052.5 of the Health and Safety Code.

(c) The applicant/developer shall agree to, and the County shall ensure, continued affordability of the moderate-income units that are directly related to the receipt of the density bonus for ten years if the housing is in a condominium project as defined in subdivision (f) of section 1351 of the Civil Code.

(d) An applicant/developer may submit to the County a proposal for the specific incentives or concessions that the applicant requests pursuant to this section, and may request a meeting with the County. The County shall grant the concession or incentive requested by the applicant developer unless the County makes a written finding, based upon substantial evidence, of either of the following:

(I) The concession or incentive is not required in order to provide for affordable housing costs, as defined in section 50052.5 of the Health and Safety Code.

(2) The concession or incentive would have a specific adverse impact, as defined in paragraph (2) of subdivision (d) of section 65589.5 of the Government Code, upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low and moderate-income households.

(e) Nothing in this section shall be interpreted to require the County to grant an incentive or concession that has a specific, adverse impact, as defined in paragraph (2) of subdivision (d) of section 65589.5 of the Government Code, upon health, safety, or the physical environmental, and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact. Nothing in this section shall be interpreted to require the County to grant an incentive or concession that would have an adverse impact on any real property that is listed in the California Register of Historical Resources.

(f) In no case shall the County apply any development standard that will have the effect of precluding the construction of a development at the densities or with the concessions or incentives permitted by this section. An applicant/developer may submit to the County a proposal for the waiver or reduction of development standards and may request a meeting with the County.

(g) It shall be the responsibility of the applicant/developer to show that the waiver or modification is necessary to make the housing units economically feasible.

(h) For the purposes of this chapter, except as provided in subsection (i), "density bonus" means a density increase of at least twenty-five percent, unless a lesser percentage is elected by the applicant/developer, over the otherwise maximum allowable residential density under the applicable zoning ordinance and land use element of the general plan as of the date of application by the applicant/developer to the County. All density calculations resulting in fractional units shall be rounded up to the next whole number. The granting of a density bonus shall not be interpreted, in and of itself, to require a general plan amendment, zone change, or other discretionary approval. The density bonus shall not be included when determining the number of housing units which is equal to ten, twenty or fifty percent of the total. The density bonus shall apply to housing developments consisting of five or more dwelling units.

(i) For the purposes of this chapter, if a development does not meet the requirements of subsections (a)(1), (a)(2) or (a)(3) of this section, but the applicant/developer agrees or proposes to construct a condominium project as defined in subdivision (f) of section 1351 of the Civil Code, in which at least twenty percent of the total dwelling units are reserved for persons and families of moderate income, as defined in section 50093 of the Health and Safety Code, a "density bonus" of at least ten percent shall be granted, unless a lesser percentage is elected by the applicant/developer, over the otherwise maximum allowable residential density under the applicable zoning ordinance and land use element of the general plan as of the date of application by the applicant/developer to the County. All density calculations resulting in fractional units shall be rounded up to the next whole number.

(j) "Housing development," as used in this section, means one or more groups of projects for residential units constructed in the County. For the purposes of this section, "housing

development" also includes either (1) a project to substantially rehabilitate and convert an existing non-residential building to residential use, or (2) the substantial rehabilitation of an existing multi-family dwelling, as defined in subdivision (d) of section 65863.4 of the Government Code, where the result of the rehabilitation would be a net increase in available residential units. For the purpose of calculating a density bonus, the residential units do not have to be based upon individual subdivision maps or parcels. Density bonus units need not be constructed in the same project area as affordable units.

(k) For the purposes of this chapter, concession or incentive means any of the following:

(1) A reduction in site development standards or a modification of zoning code requirements or architectural design requirements that exceed the minimum building standards approved by the California Building Standards Commission as provided in part 2.5 (commencing with section 18901) of division 13 of the Health and Safety Code, including, but not limited to, a reduction in setback and square footage requirements and in the ratio of parking spaces that would otherwise be required.

(2) Approval of mixed use zoning in conjunction with the housing project if commercial, office, industrial or other land uses will reduce the cost of the housing development and if the commercial, office, industrial or other land uses are compatible with the housing project and the existing or planned development in the area where the proposed housing project will be located.

(3) Other regulatory incentives or concessions proposed by the applicant/developer or the County that result in identifiable and actual cost reductions. This section does not limit or require the provision of direct financial incentives for the housing development, including the provision of publicly owned land, by the County, or the waiver of fees or dedication requirements.

(m) If an applicant/developer agrees to construct both twenty percent of the total units for lower-income households and ten percent of the total units for very low-income households, the developer is entitled to only one density bonus and at least one additional concession or incentive identified in section 65913.4 of the Government Code, although the County may, at its discretion, grant more than one density bonus.

(n) For the purposes of this section, the following definitions shall apply:

(1) "Development standard" means any ordinance, general plan element, specific plan or other local condition, law, policy, resolution or regulation.

(2) "Maximum allowable residential density" means the density allowed under the zoning ordinance, excluding bonus units permitted under this section.
