

## 2021 Hemp Submission Timeframes

### Planting

#### **Planting Report CCR 4935(a)**

- A Planting report is required to be submitted within 72 hours of the completion of each planting of an Industrial Hemp crop.
- Separate planting reports are required for each planting.

#### **Lot Identification Number from the US Department of Agriculture Farm Services Agency**

- Prior to sampling, registrants are required to obtain a Lot Identification Number from the US Department of Agriculture Farm Services Agency. The Lot Identification Number is required to be listed on the Sample Analysis Request Form.

To obtain a Lot Identification Number contact:  
USDA San Benito County Farm Service Agency  
Hollister Service Center  
2337 Technology Parkway Ste C  
Hollister, CA 95023-2544  
(831) 637-4360 ext. 3

### Sampling

#### **Pre-Harvest Report and Sample Analysis Request Form CCR 4940 (a), 4940 (b)**

- Registrants are required to submit a signed pre-harvest report and sample analysis request form at least 30 calendar days before the anticipated harvest start date CCR 4940 (b)(1) and CCR 4940(b)(3)
- Samples shall be collected no more than 11 calendar days prior to the anticipated harvest start date listed on the pre-harvest report [4940 (a)(1)]
- Harvest activities occurring more than 30 days after the sample collection date shall require additional sampling for THC content prior to harvest [4940 (a)(2)]

### Harvesting

#### **Harvest Report**

- Registrants are required to submit a completed harvest report within 72 hours of the completion of the harvest of each Industrial Hemp crop. [CCR 4946 (a)(1)]
- Harvest shall be completed within 30 calendar days from the sampling date [CCR 4946 (a)(3)]
